Experience

Consultant

NETCOMPANY   July 2024 – Now

Netcompany is one of the largest Danish IT firms. The project I worked on focused on improving internal wokflows using (generative) AI. It included:

- chat app (similar to ChatGPT) – using ASP.NET Core + Angular,
- meeting summary with MS Teams integration,
- document review with inline changes and comments aside,
- PR review in Azure DevOps,
- IDE plugins (Visual Studio, IntelliJ IDEA, VS Code),
- helping internal case management based on SharePoint (checking tickets before creation and helping resolving them).
